

Conduct rules

Electrical equipment:

Deficient contacts, cables or other electrical equipment may not be connected to the harbour power outlets. It is not allowed to use electric heaters or electric water heaters.

The electric system is not dimensioned for this.

Barbecuing / grilling:

Due to fire hazard the following is very important.

Barbecuing/grilling using charcoal is only permitted on the permanent grills. If disposable grill is used this must be placed on the permanent grill.

It is very important that extreme precaution is observed when barbecuing/grilling. It is **PROHIBITED** to barbecue/grill on the docks and the lawn.

In the boat:

Candles, kerosine lamps or similar must be handled with precaution due to the fire hazard. If you are not using the LPG on board please close the main LPG-valve.

It is prohibited to refill gasoline or diesel fuel at the guest spots in the harbour. If you notice that anyone doesn't follow the rules or that you need some more information please contact:

Harbour host +46-70 373 54 46

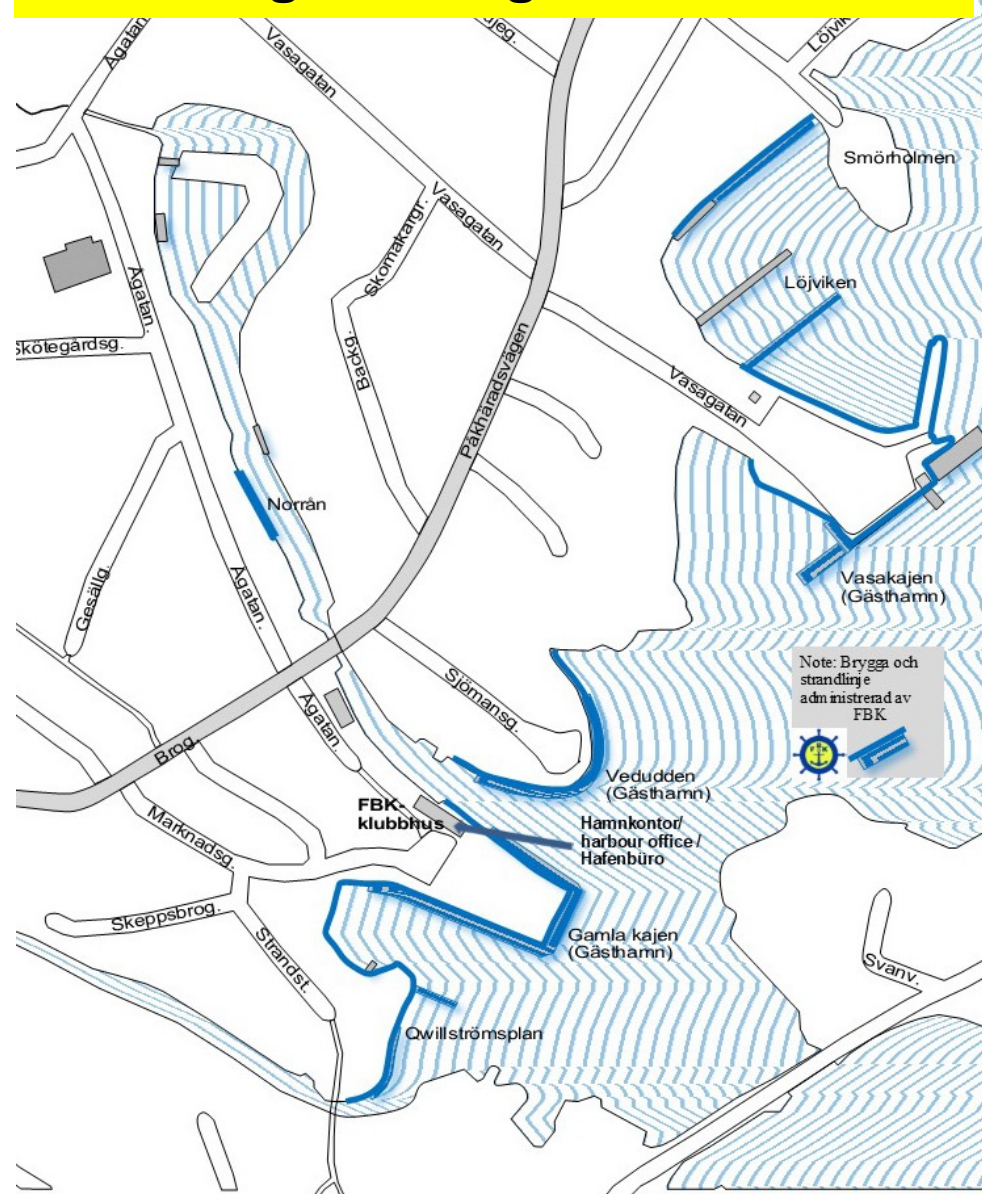

IF AN ACCIDENT OCCURS CALL 112

Tip: Always have a functioning smoke alarm and fire extinguisher on board. Perform leakage test of the LPG equipment at least once a year.

Did you know that only approx. 30% of all recreational boats are equipped with smoke alarm. This should be compared to that approx. 90% of all houses and apartments are equipped with smoke alarms.

Emergency plan and conduct rules for Figeholms guestharbour

Emergency plan
